

Jeff Christmann

Executive Vice President/Chief Operating Officer

Mr. Christmann has over eighteen years experience in corporate and healthcare facility project management, construction and operations. As Executive Vice President/Chief Operating Officer at ADAMS, he carries responsibility for all revenue production, professional services execution, quality assurance and operations of the company. In his former position as Executive Director at ADAMS, Mr. Christmann was responsible for management of the Dallas, Texas office and executive oversight of the Denver, Colorado office. Mr. Christmann successfully developed the overall markets for services, including cultivating business leads, winning engagements and maintaining client relationships. His duties included assessing and developing new markets, analyzing opportunities and developing and setting long-term and short-term business strategies. He also carried responsibility for recruiting, hiring, training, and supervising respective Directors and managing a staff of engagement professionals who provided specific expertise in the planning, development and delivery of engagements. Prior to joining ADAMS, Mr. Christmann was Vice President of Business Development for Healthcare at McCarthy in Dallas, Texas and previously, Vice President of Business Development and Marketing at GE Johnson Construction Company in Colorado Springs, Colorado. Also on the Board of Directors for GE Johnson, Mr. Christmann was instrumental in developing their healthcare niche to one of the top Healthcare Builders in the Rocky Mountain Region. Highlights from his career include his tenure at GE Johnson, where Mr. Christmann rose through the ranks holding the following positions, respectively: Estimator, Project Engineer, Superintendent, Project Manager, Operations Manager, Project Executive/Healthcare Division Manager and finally, Vice President of Business Development and Marketing.

Years Experience: 18
