

ALIGN. ACT. ACHIEVE.

## Midland Memorial Hospital Groundbreaking

**Midland, TX, February 2010** – ADAMS Management Services Corporation (ADAMS), is pleased to announce Midland Memorial Hospital in Midland, Texas is breaking ground on a \$175M expansion program.

In 2007, the hospital embarked on a program to expand the services on the main campus in order to accommodate a strategic alignment of services and to improve the long term viability of the physical plant of each campus. Successful delivery of the expansion program requires detailed planning, programming, design, construction and occupancy services from a team of qualified professionals, as well as program management services for the leadership, coordination and management of these team members. Midland Memorial Hospital engaged ADAMS to act as Program Manager in December 2007.

ADAMS is responsible for providing direction, oversight and management to all members of the project delivery team as well as assuring the effective coordination of their various activities. While the project architect had been previously identified for the project, ADAMS played a key role in the selection process of members of the architect's team and team of subconsultants. ADAMS also assisted in the selection process for those consultants who will contract directly with the hospital.

Additionally, ADAMS assumes the role as advisor to Midland Memorial Hospital on all aspects related to the project, providing advice that is consistent with the best practices in the industry and Midland's best interests.
